PROFILE

Versatile IT professional skilled in web development, UI/UX design, database management, and API/AI integration. Experienced in creating secure, scalable systems with PHP, MySQL, and modern frontend tools. Proficient in payment gateway and automation integration, delivering seamless digital solutions. Passionate about design and problem-solving, bridging technology with user needs to help businesses grow.

WORK EXPERIENCE

Freelance Web & UI/UX Developer

Self-Employed | Remote | 2025 – Present

- Built responsive websites and landing pages with PHP, MySQL, Bootstrap, React, and Tailwind CSS.
- Developed automated systems for student attendance and bank reconciliation with reporting and real-time tracking.
- Integrated PayPal and Stripe for secure online payments.
- Created private media platforms with authentication and access control.
- Designed teacher-student interaction systems for educational institutions.
- Delivered custom WordPress and Wix sites, including e-commerce and branding solutions.
- Produced logos, flyers, and branding assets for small businesses.
- Enhanced user experience through API and AI integrations (chatbots, automation, third-party tools).

EDUCATION

Bachelor of Computer Science
Bauchi State University.

2018 - 2024
